

# 7th Annual SWI Meeting

OPEN TO ALL ISMRM MEMBERS:

If you are interested in new clinical applications of  
Susceptibility Weighted Imaging (SWI)

Please join us the evening of :

Wednesday, May 23rd

*Berlin, Germany*

*Date:*

05/23/2007

*Time:*

7:30pm

*Sponsored by:*

*The MRI Institute for Biomedical Research*

*&*

*Siemens Medical Solutions*

Courtyard Berlin City Center

(Toskana Conference Room)

Axel-Springer-Strasse 55

Berlin, D-10117

Germany

Tel: 49-30-8009280

Fax: 49-30-8009285300

# *The 7th Annual SWI Meeting - Berlin, Germany*

Sponsored by:  
The MRI Institute for Biomedical Research  
&  
Siemens Medical Solutions

## **Presentation Schedule**

*7:30pm Open to All Interested in SWI (Public Session):*

1. E. Mark Haacke  
- "Welcome"  
- "SWI Imaging of Ferritin: A Biomarker of Neurovascular Processes"
2. Jaladhar Neelavalli  
"Removing Static Field Phase Using Forward Field Mapping from Magnitude Images"
3. Masahiro Ida  
"SWI in Acute Venous Sinus Thrombosis and Venous Congestion"
4. Norbert Schuff  
"4T SWI Abnormalities in Parkinson's Disease"
5. Markus Barth  
"Functional SWI at High Field Strengths"
6. Quan Jiang  
"Imaging Angiogenesis During Stroke Recovery Using SWI and Vascular Related MRI"
7. Juergen Reichenbach  
"Jena, Germany Group"
8. Andreas Deistung  
"Susceptibility Weighted Imaging at 1.5T, 3T and 7T"
9. Alexander Rauscher  
"Distinction Between Paramagnetic and Diamagnetic Spherical Lesions in the Brain Using SWI Phase Imaging"
10. Jan Sedlacik  
"Impact of Carbogen and Caffeine on Venous Contrast in SWI"
11. Seong-Ge Kim  
"Sub-Cortical Veins in the Animal Brain Applied to fMRI"
12. Janine Lupo  
"High Field SWI of Brain Tumors"

*Closing Remarks*
